

AMP850

MULTI-CHANNEL AMPLIFIER

The AMP850 is a multi-channel amplifier that allows you to drive up to eight (mono) or four (stereo) speaker zones. Each stereo loudspeaker zone is allocated the generous power of 2 x 50 watts. The AMP850 serves as the powerhouse of an existing multiroom system or you can use it in combination with our Smart Zone 4 or Smart Stream. In different rooms, you can control the sound with local volume controls (from our N-VOLST range).

Each zone has enough power. Extra warm background music lives here.

output power	50 Watt / channel @ 4 Ω
bridged power output	150 watts / channel @ 8 Ω
frequency range	20 Hz - 20 kHz (+/- 3dB)
channels	8 channel, 4 zones
input	stereo RCA (bus input 1 & 2 + locale), trigger in
output	stereo RCA (bus output 1 & 2), trigger out
safety	overvoltage, short-circuit, thermal
power supply	AC 220 - 240 V / AC 100 - 120 V 60 Hz
dim. (h x w x d)	88 x 430 x 335mm
weight	9,5kg
