

PM-2S01

2 ZONES STEREO PRE-AMPLIFIER

With the PM-2S01, you now have a 10-channel preamplifier whose signals can be transmitted to two zones. Each channel has its own individual volume control and is ideal for connecting up a microphone or other sources. You have a choice between XLR connections (9), MIC/LINE (5), RCA (4) and REC OUT (1).

This company restaurant looks and feels pleasant, but different from the offices. The PM-2S01 ensures a controllable solution!
